BUILDERS

EMPLOYMENT OPPORTUNITY ***CONSTRUCTION PROJECT ENGINEER***

Enterprise Builders, Inc. is seeking an applicant to fill the role of a Construction Project Engineer which comes with an industry-competitive salary, hands on training, and management development. If you have a desire and possess solid communication, organizational, technical & leadership skills, and would like to work in an open-space environment that fosters personal and business growth, we want to speak with you.

Project Engineering Training & Development – Construction Management:

- Project Managers, Superintendents, and Estimating: Roles, Responsibilities, & Interdependencies
 - **Construction Project Team Collaboration** (Owners, Design Professionals, Subcontractors, and EBI Departments)
 - **Industry System & Controls**
 - Procore | Construction Management Software
 - Primavera P6 Professional | Scheduling Software
 - Timberline Sage 300 | Estimating & Cost Accounting Software
 - **Project Startup:**
 - Overview of CPM Schedule & Contract Documents with Project Manager
 - Learn Project Documents - Plans & Specification
 - Participate in Key Subcontractor Procurement Meetings
 - Generate Project Submittal Log & Other Project Deliverables (Ex. Permit Application)
 - **Project Delivery / Execution:**
 - Track Project Documents, Project Changes, & Manage Submittal Log
 - Learn Procore Management: Submittal & Project Change Management
 - Develop a Basic Understanding of Project Financial Management
 - Conduct Periodic Site Visits with Project Manager
 - **Project Closeout:**
 - Establish Training Sessions & Provide Informative Documentation to the Owner
 - Learn the Requirements Necessary to Close a Project: Financially & Logistically
 - Obtain Documents / Submittals from Subcontractors & Vendors
 - Participate in Owner Closeout Meeting to Review Transfer of Project to Owner

Company Benefits:

- Competitive salaries (Starting: \$45,000 to \$55,000)
- Medical / Dental Insurance
- Retirement Plan - 401(K)
